

## An important note

THIS IS THE AUSTRALIAN EXPERIENCE BUT IT IS STILL RELEVANT AND A WARNING TO EVERYBODY.

*All the information in these papers is very easy to reference and verify.*

These stories are numbered and to get a good grasp of what is happening with the GM disaster the order of 1 to 5 is probably the easiest order to approach and learn about this issue.

Please pass this information to as many African countries and their Politicians that you can and also to their Media people, Academics, Farmers or any person who cares as soon as possible because MONSANTO is working fast with unlimited funds to tell their lies to entrap countries with their patented DNA and their chemicals to control people's food.

### WHEN CHEMICAL CORPORATIONS CONTROL PEOPLE'S FOOD THEY CONTROL THE PEOPLE AND THEIR COUNTRY

PS - News just in.

There is a timely warning just now coming from the US. It appears that President Obama and Bill Gates have been convinced by giant Agg-Business groups that East Africa needs a \$3 billion investment to swamp those countries with GM seeds, "TO HELP THOSE PEOPLE".

All government ministers and farming groups of East Africa must be warned about what will happen. Three major companies will be involved and they are Monsanto, Cargill and DuPont. Their representatives will have meetings with government ministers and various government departments plus any farming group that will listen to them. They will offer seeds free to help Africa but these seeds are a time bomb. Once your own seeds are contaminated you will lose control of them forever. From then on seeds will only grow with the companies' chemicals; and you will see and increase in allergies like never before. This help for Africa is about profit and control of food; you only have to look at the evidence in the places where these people already operate, **helping of course**.

To learn more about this latest move by these criminal organisations and their plans for Africa **and** the world, there are two sites:
